AdNovum is an established international full service provider of software and security systems for customers with highly demanding technical and commercial requirements. Renowned organisations from a variety of industries and the public sector trust AdNovum's competence and the strength of its IT service offering as well as its innovative products and solutions.

The company was founded in 1988, is privately held and has its headquarters in Zurich, Switzerland, with offices in Singapore and Hungary.

For its Singapore branch, AdNovum is seeking a

Software Engineer

Position and responsibilities

As a Software Engineer with AdNovum, you will work on a challenging and rich variety of implementation projects and consulting assignments in the fields of software and applications security, mobile and enterprise applications as well as systems integration.

Besides designing and implementing software systems, you will advise our clients and internal management on matters related to software technology, architecture and security. Your work will be measured against the highest standards and contribute substantially to AdNovum's leading technical reputation.

This is an ideal opportunity for an enthusiastic and dedicated engineer to step up to a new level of challenge. Working with us, you will be able to engage with and profit from our highly skilled and experienced software engineering team.

Qualifications and requirements

To fulfil this role, you will need to have a good degree in Computer Science and a minimum of three years of experience in the following areas:

- Java/Java EE applications development in a Unix/Linux environment
- Web applications development using frameworks such as JSF2 and ICEfaces
- Development of enterprise portals and content management systems on platforms such as Oracle WebCenter and UCM
- Mobile applications development (iOS, Android)

The position is to be filled as soon as possible and will be based in Singapore. It is open to Singaporeans and PRs only. We expect applicants to be willing to travel.

If you enjoy working independently in a small and dynamic start-up environment and have the required qualifications and experience, please apply by sending your resume to martin.nokes@adnovum.sg.

Please visit <http://www.adnovum.sg> for further information on AdNovum. Your application will be treated confidentially.
